Dear Reader

It’s Summertime!

Welcome to the Summer issue of Socionext News. It has been a busy few months here since our last newsletter, continuing to develop cutting-edge technology has kept us very occupied.

Website Relaunch

We have also fully refreshed our website eu.socionext.com. Our website like our newsletters are designed to keep you updated with the latest developments at Socionext and see our state-of-the-art product solutions in imaging, networking and computing fields.

New Products

Action Shots

We believe it is much better to see products in action so we have put a selection of videos on our website and you can see for yourself how our products can be used. Just let your imagination run away with you!

‘ Supporting ASIL Requirements with Socionext’s Automotive Display Solutions’
Come and Meet Us

**IBC | September 15-19 | Amsterdam, The Netherlands**

We will showcase the latest and most advanced video processing semiconductor solutions from Socionext at the IBC Launch Pad in Hall 9.

**ELIV – Electronics in Vehicles International Congress | October 18-19 | Bonn, Germany | Booth No 39**

We will be showcasing our latest Automotive Technologies and Solutions including Eco Spatial Recognition, Functional Safety, Driver Audio Alert and HMI Development Tools.

Our Showroom

Can’t get to the Shows? Then come along to our Showroom in Neuried where you can experience our latest technology solutions.

This is what you can experience on site...

**It’s Showtime!**
