Events

Electronics Industry Awards – UK

The [Electronics Industry Awards](#) are being held in London on Friday 21st June. Once again, we are finalists in the Automotive Product of the Year with our [Smart Display Controller SC1701](#), we have our fingers crossed we can win again.

Exclusive Presentation - FRAMOS Tech Days | Munich | 22-23 May 2019

Our presentation demonstrated how Socionext's sophisticated Image Processors enable high-quality images for a range of vision applications together with the latest news and trends for the future.

Highest Image Quality for a wide range of vision systems is possible with Socionext's [Milbeaut® Image Processors](#). The compact image signal processors (ISPs) in the Milbeaut® range are powerful single chip systems, which in combination with the lens and image sensor are the most important components in a camera system.
